The conference is recommended

for theoreticians and practitioners dealing with designing,
construction and exploitation of hydraulic structures.

The official languages of the conference are **English and Polish**.
The conference will be held in the eastern part of the Kłodzka Valley
in Poland.

Participants have the opportunity to take part in technical tour to the
one of the oldest dams in Poland on September 12, 2019.

CONFERENCE TOPICS

- I. Dam safety
- II. Exploitation, maintenance and repairs of hydraulic
structures
- III. Tailings ponds
- IV. Water-power engineering
- V. Environmental issues in hydraulic structures
- VI. Hydraulic structures on waterways

Authors are requested to **submit their scientific papers**
to the Organizing Committee according to the above mentioned
topics area.

The scientific papers will be held for revision and qualification
for their publication in the **IMGW Monograph series** and
presentation during the conference.

The registration form can be downloaded at:
www.is.pw.edu.pl
www.ibs.pw.edu.pl
www.imgw.pl
www.nbi.com.pl

The possibility of the **company's promotion** may be in the form
of presentation, exposition, advertisement or in conference
materials as a separate part.
